

2 Lister les produits (nusine, nprod, libellé) qui n'ont pas été commandé.

```
select nusine, nprod, lib
from produit
where nusine+nprod NOT IN (select nusine+nprod
                           from commande)
```

```
-- avec not exist, il faut select *
select p.nusine+p.nprod, lib
from produit p
where NOT EXISTS (select *
                  from commande k
                  where k.nusine+k.nprod = p.nusine+p.nprod)
```

```
select P.nusine, P.nprod, lib
from produit P
LEFT JOIN commande K on P.nusine+P.nprod = K.nusine+K.nprod
where K.nusine+K.nprod is null
```

```
nusine nprod lib
